Guild | Traditional Series Options and Information

D-TAR Pickup System

The D-TAR Multi-Source Pickup System is available as an option in Guild Traditional Series acoustic guitars. To order, replace the "0" in the seventh digit of the part number with a "7." For example, #3856300821 D-40 Bluegrass Jubilee Natural becomes #3856307821 with D-TAR. (General D-TAR part number listed as 385-xxx7-xxx). **(MSRP \$350)**

Left-Handed Guitars

Guild Traditional Series guitars are available left-handed. To order, replace the "0" in the sixth digit of the part number with a "2". For example, #3856300821 D-40 Bluegrass Jubilee Natural becomes #3856320821 when ordered left-handed. (General left-handed part number is 385-xx2x-xxx). **(MSRP \$300)**

The Benefits of Red Spruce

Many Guild models have red spruce tops, and all U.S.-made Guild guitars have red spruce bracing. Red spruce (also commonly known as Adirondack spruce) is relatively rare, with characteristics that clearly distinguish it from other spruce varieties.

Chiefly, red spruce has a greater strength-to-weight ratio than most other spruce types. That essentially means that it's physically stronger than other spruce varieties, and it lets Guild build lighter guitar tops. This means more pronounced top flexibility, and it produces greater dynamic range—more volume and headroom when a player really digs in. Consequently, when players ask for an instrument with a little extra, a guitar with a red spruce top and bracing is therefore worth considering.

Guild | Standard Series Dreadnought
